

AAOT Pathway at COCC

Instructions for CCHS Students

1. Apply for admission to COCC (cocc.edu). If you have never taken a class at a COCC campus, you will need to apply. If you have taken a class at a COCC campus in the past, you will need to reapply. Make sure your application reflects that you are a degree-seeking student. Do not apply using your school district email account, use your personal email account.
2. Activate your account. Information about this step will arrive in your personal email account.
3. View the Bobcat Welcome video. This is a link to a 30-45 minute video that will be emailed to your personal email account.
4. Provide placement information. If you have college-level writing and/or math credits, indicate that information on the placement assessment.
5. Meet with an academic advisor and view your GradTracks program to review your progress toward completion status.
6. Submit official transcripts (*make sure you are requesting official transcripts and not unofficial transcripts*)
Official transcripts must be requested from each transfer institution where you received credits. You do not need to request transcripts from COCC.

There are several ways to have your transcripts delivered:

Electronic Delivery: This is the fastest delivery method. Many colleges use National Student Clearinghouse (online) for this service – check with your transfer institution for more information. Most institutions charge a fee for official transcripts. If your institution requires an email address for delivery, use transcripts@cocc.edu.

By Mail: Have your transcripts sent directly to:

Central Oregon Community College
Admissions & Records
2600 NW College Way
Bend, Oregon 97703

Hand-delivery: We only accept official transcripts in the original sealed envelope from the institution. If you have your transcripts delivered to your home, do not open the envelope.

7. Submit the “Application for Degree form” on the COCC website.
